16. Open the device. Put the badge in the device.

GOLDFINGER

Playing the role of James Bond, agent 007, you have been assigned to uncover and foil the fiendish plot of the brilliant but dangerous international financier, Auric Goldfinger, whose plan is to destroy the U.S. gold reserve at Fort Knox and the economic security of the free world. In trying to accomplish this mission, you will encounter Goldfinger's familiar associates Oddjob and Pussy Galore who you must defeat in one way or another. As in the previous Bond adventure by Mindscape, *A View to a Kill*, you are up against incredible odds. Move quickly and don't hang around any one place too long.

open the armrest
