

the prisoner

It is only occasionally that a whole new genre of game makes an appearance in the marketplace. Edu-Ware believes THE PRISONER is a game that well justifies this claim. Inspired by the highly acclaimed television series, your Apple puts you in a nightmarish 1984 world whose rulers seek to break you down by an extensive array of brainwashing techniques, while you are armed only with your intelligence, your sense of individuality and your wits. Will you escape to freedom, or forever remain THE PRISONER?

Includes an extensive use of the Apple II'S sound and display capabilities, as well as natural language data entry. Play will extend over countless hours.

TERRORIST ^{T.M.}

A frightening two-player game which puts you directly into the hot seat, managing a life and death struggle with ruthless terrorists. The paradoxes and pressures inherent in both sides of the struggle are brought to life as the Apple allows each to move against the other simultaneously.

Included are three interaction scenarios (capture of a building and hostages, air piracy, and nuclear blackmail), a parameter generator, a scoring routine, and an easy-to-use turn-key system which brings all of these programs together. Random and player-generated parameters insure that no two confrontations will be exactly the same, making this package a sobering and thought provoking experience for all.

NETWORK ^{T.M.}

The thrill and frustration of being the head of Television Programming for a giant network is experienced by two players as they compete with each other and the computer. You bid on new shows, schedule them, adjust to weekly ratings, and then dump losers and try to recover from your mistakes at the end of the thirteen week "sweep". Paddle input provides real-time control over the rapidly changing situation.

WINDFALL ^{T.M.}, The Oil Crisis Game

Have high energy prices and short supplies left you more time around your computer? Windfall will fill those empty hours (though not, unfortunately, your gas tank), and alleviate frustrations as your brain tangles with energy markets. As the Chief Executive of Engulf Oil, you join the other side of the petro world, attempting to turn crisis into cash. Screen displays show both graphically and numerically the results of your manipulations, as a helpless public lines up at your stations.
