

Rings of Zilfin

In this one-character role-playing game you'll trek through four provinces in the realm of Batiniq to find a pair of magic rings needed to knock out the evil Lord Dragos. Your character, an animated stick-man, appears to walk along as the landscape scrolls past, and the buildings in each town are shown in full-screen pictures like those in graphic adventures. Interiors are shown in a window, where some of the combat and other interaction also occurs. To boost hit points, you gather and use mushrooms; other kinds of fungi and herbs endow your character with various powers.

Combat is resolved in arcade-style battles that allow some spellcasting, but is simple and quickly grows tedious (a keyboard interface is used throughout the game). After learning enough magic, however, you can avoid most combat by teleporting around, and the skill setting lets you begin with extra equipment if desired. Graphics and sound are simple, but the puzzles—which involve gathering clues and objects as in a text adventure—are *Zilfin's* best feature. *Zilfin* is an offbeat and entertaining role-playing game for anyone who enjoys action as well as puzzle-solving. Author Ali N. Atabek may not have created another *Ultima* or *Wizardry*, but he did devise an original game design.
