

HOW TO LOAD
DANGER IN DRINDISTI
DUAL FORMAT DISK

APPLE

Boot up your HELLFIRE WARRIOR disk following the loading instructions that came with your game. At the point where the computer asks you if you want to re-enter a saved level, answer "Y". You will be asked to insert the disk with the saved level. At this time, insert DANGER IN DRINDISTI and press the "Return" key. Enter a level number between 6 and 9 and hit the "Return" key. At this point, put the HELLFIRE disk back in and press the "Return" key. You are now ready to begin play. Please note, this is a 16 sector disk. If you have a 16 sector HELLFIRE WARRIOR program that is version 2, return it to us and we will replace it with a version 3 at no charge.

TRS-80

Boot up your HELLFIRE WARRIOR disk following the loading instructions that came with your game. At the point where the computer asks you which level you wish to enter, remove your HELLFIRE WARRIOR disk and insert DANGER IN DRINSISTI. Type in a number between 6 and 9 and hit the "Enter" key. Reinsert HELLFIRE WARRIOR when prompted to insert the program disk, and press any key. Now you are ready to begin play.

ERROR MESSAGES: If you get an error message during play, or if you have trouble loading the game, give our Customer Service department a call at (415)964-8021, or write to our Company for some advice.
