CYRILLIC	**HEBREW [2]**
ESPERANTO	**KATAKANA**

All fonts may be loaded with the text module in The Complete Graphics System II, or with The Complete Graphics System text routine in your own programs. The small fonts can also be used as is with Higher Text from Synergistic Software. To convert a small font to the format used in the Applesoft Toolkit, from Apple Computer, Inc., run the program "TOOLKIT CONVERTER" on the small fonts disk. To convert a large font to Higher Text format (also used with MPI printers), run the program "HT LARGE CONVERTER", which is on the small fonts disk.
